## Course Overview

Few doctrines have been as misunderstood and underappreciated than the doctrine of the Trinity. Throughout this course we will seek to gain the Biblical portrayal and theological dealings with the nature and economy of the Father, Son, and Holy Spirit.

Please stop by the course website for more information!

## Suggested Texts

The Forgotten Trinity, *James White*

Our Triune God, *Peter Toon*

## Why a course like this?

Theological education has been removed from the church. We are aiming to put it back. Most Christians will never set foot in a seminary class or theological course of any type. However helpful, what is taught in those courses is usually difficult and expensively out of reach.

Hopefully we can help change that.

This course is one of several that will be offered at no cost and with a sliding scale of difficulty.

- For those who desire to simply listen, they can attend the class or listen to the audio recordings which will be posted on the course website.
- For those wishing to go deeper in their studies the accompanying readings and textbooks will encourage such. That suggested homework will be assigned weekly.
- Finally, for those wishing to dig down deeply and take this as essentially a college level course, I will be assigning suggested paper topics that will be aimed at helping you lay down what you've learned for your own future use.
